Features and specifications are subject to change without notice.

¹ CPU speed will be reduced under certain operating conditions. ² Intel® Virtualization Technology is not supported on VAIO. ³ If memory modules of the same capacity are installed to both of the two memory module slots, computer will run in dual channel mode and provide better performance. ⁴ Necessary data for recovery (setting back to initial shipment settings) in the hard disk drive consuming approximately 7GB in size is available separately. ⁵ Total Available Graphics Memory refers to the new Windows Vista classification of graphics memory, which is the total of Dedicated Video Memory, System Video Memory and Shared System Memory. ⁶ Compatibility confirmed with Sony branded "Memory Stick" media only. ⁷ The maximum communication distance can vary depending on the obstacles or the distance between the communication devices, the radio waves, the operating system or the software being used. ⁸ The communication speed varies depending on the distance between communication devices, existence of obstacles between such devices, the device configuration, the radio conditions, and the software in use. In addition, communication may be cut off depending on the radio conditions. ⁹ Including cards that can be inserted in direct slots and the supplied memory card adapter (VGP-MCA20). ¹⁰ As for the Memory Stick PRO media, only Sony branded media is recommended to use with the Memory Card Adapter (VGP-MCA20). ¹¹ The copyright protection and high-speed data transfer features of the SD memory card are not supported (VGP-MCA20). Not compatible with SD Memory Cards of more than 2GB capacity such as SDHC Memory Card. ¹² Estimated battery life (under JETA Battery Run Time Measurement Method ver. 1.0). Actual battery life may vary with different operating conditions and settings. Estimated battery life at "SPEED MODE" will be approximately 1.5 hours shorter for VGP-BPS2C and approximately 2.0 hours shorter for VGP-BPL2C. For further details, please visit vaio-online.sony.com ¹³ Free use of 90 days. Further update will be charged. ¹⁴ This product may only function with a genuine Sony battery designed for this model. ¹⁵ Warranty conditions may vary by region.

Premier mobility meets executive excellence

VGN-SZ483N/C

VAIO SZ483N/C is a synergy of outstanding features integrating advanced technology like innovative Intel® Centrino® Duo Processor Technology (incorporating the newest Intel® Core™2 Duo Processor), Sony's unique graphics technology, carbon display cabinet, and enhanced security. Mobile performance has rarely been so refined. 13.3" wide Clear Bright LCD and full-pitched, full-sized keyboard increase ease and efficiency with plenty of space to work and play. Set in Carbon Black colour and enhanced by premium aluminium hairline palm rest, sophisticated design details create a style suited for any occasion. Look inside and out, and you'll see why VAIO SZ483N/C is Sony's flagship mobile notebook: a trim 13.3" wide size — not too small or big — to meet business needs and other interests in a variety of environments.

■ Ultra-slim display ■ MOTION EYE camera centred on a thin LCD bezel ■ Built-in Fingerprint Sensor ■ Black VAIO hairline logo

✦ Main features

Mobile advancement in a 13.3" wide size

VAIO SZ483N/C's 13.3" wide size offers optimum display space for efficient business use or movies. Open an application window with a task menu, or two in horizontal layout. Also efficient are the latest operating system, Windows Vista™ Business, and features offering the latest technology. Advanced Intel® Centrino® Duo Processor Technology ensures extremely smooth and powerful mobile performance incorporating the newest Intel® Core™2 Duo Processor T7400 (2.16GHz) leading chipset (Intel® 945GM Express Chipset) supported by FSB 667MHz, and Intel® PRO/Wireless 3945ABG Network Connection. Moreover, performance is further enhanced by an ample 2GB of DDR2 (533MHz) Sony's unique Hybrid Graphic System offers a choice of external NVIDIA® GeForce® Go 7400 GPU or internal graphics accelerator. Use SPEED MODE for 3D games, video playing or editing, and STAMINA MODE for various mobile scenes.

Mobile-conscious profile

VAIO SZ483N/C's ultra-slim display is simply amazing. This extraordinary thinness comes from the white LED, one of the latest display technologies used in the VAIO SZ483N/C LCD backlight. Combined with carbon fibre used in the display cabinet, the display thins down to a mere 5.1mm. Maintaining a weight-conscious profile for trim portability, VAIO SZ483N/C carries the built-in MOTION EYE camera centred on the upper LCD bezel. Pairing white LED technology and carbon material is how VAIO SZ483N/C stays slim and light.

Security for assured mobility

VAIO SZ483N/C has many security features to prevent unauthorised access and ensure your mobile PC lifestyle. Hard Disk Password protects sensitive HDD data for one level of security. The biometric fingerprint sensor allows for another, with easy yet unmistakable ID recognition, circumventing the need for passwords. Further data protection for your VAIO SZ483N/C comes from secure encryption and decryption of files and folders via the Trusted Platform Module (TPM) security chip and bundled software utility.

Mobile endurance

For powerful mobile performance, long-lasting stamina is essential. VAIO SZ483N/C offers up to 6.5 hours* with standard battery VGP-BPS2C, up to 10 hours* with optional battery VGP-BPL2C. Fast and smooth mobility comes from VAIO SZ483N/C's compatibility with wireless LAN standards IEEE 802.11a, IEEE 802.11b and IEEE 802.11g (Wi-Fi). And, by sensing shakes or shocks and securing the HDD, VAIO HDD Protection with integrated 3D acceleration sensor prevents important data loss.

* Estimated battery life (under JEITA Battery Run Time Measurement Method ver.1.0). Actual battery life may vary with different operating conditions and settings. Estimated battery life at "SPEED MODE" will be approximately 1.5 hours shorter for VGP-BPS2C and approximately 2 hours shorter for VGP-BPL2C.

Communication advantages + AV

VAIO SZ483N/C features advanced mobile PC communication with built-in MOTION EYE camera and mic. Simply turn on MOTION EYE for convenient videoconferencing. Or use Bluetooth®-compatible headsets with applications for smooth voice communication. VAIO SZ483N/C also features versatile audiovisual capabilities. Sony's Sound Reality audio chip takes sound performance to a superior level. And SonicStage Mastering Studio Audio Filter with 4 exclusive sound presets works superbly with specially recommended headphones*. With VAIO SZ483N/C's DVD±RW/±R DL/RAM Drive, archiving your digital masterpieces like home videos, edited movies, or photos couldn't be smoother. For flexible editing capability, take advantage of the integrated Memory Stick Duo slot and ExpressCard™/34 slot plus bundled Memory Card Adapter. Communicate, create, and listen with VAIO SZ483N/C!
